CHAMBERLAIN MEDICINE CO.
DES MOINES, IOWA, U.S.A.

A is the Auklet who finds it quite easy,
To live on an Isle in the Ocean so breezy.

B is the Black-bird, his wings capped with red,
Which he spreads as he sings "kong-quer-ree" overhead.

BONNY BIRD CARDS—A NEW SET FREE TO ALL CHILDREN

SEND FOR THEM—The popularity and warm reception given our first set of "Bonny Bird Cards" have resulted in an entirely new set of these popular alphabetical bird rhymes, in which all new birds are named. As usual, accurate information is given on the character, nest and note of each bird. Whether or not you have had the first set, you will surely want these. To secure them free of cost, drop a postal to Chamberlain Medicine Co., Des Moines, Iowa, writing your name and address clearly. Kindergarten, Primary grades, Sunday School teachers and Nature Study classes find them useful and valuable.

A GOOD THING—DON'T MISS IT

Send your name and address plainly written, together with 5 cents (stamps or coin) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing CHAMBERLAIN'S COUGH REMEDY for coughs, colds, croup, bronchial, "flu," and whooping conghs, and tickling throat; CHAMBERLAIN'S TABLETS for stomach troubles, gassy pains that crowd the heart, biliousness and constipation; CHAMBERLAIN'S SALVE, needed in every family for burns, scalds, wounds, piles and skin affections. Try these valued family medicines for only 5 cents. Don't miss it.

ASTRONOMICAL CALCULATIONS FOR 1926

CHRONOLOGICAL ERAS

The year 1926 of the Christian era comprises the latter part of the 150th and the beginning of the 151st year of the independence of the United States of America, and corresponds to the year 6639 of the Julian period.

Of the peoples using the Christian era, some employ the Gregorian calendar and some the Julian. January 1, 1926, Julian calendar, corresponds to January 14, 1926, Gregorian calendar.

The year 7435 of the Byzantine era begins on September 1, 1926, Julian calendar.

The year 5687 of the Jewish era begins at sunset on September 8, 1926, Gregorian calendar.

The year 2679 since the foundation of Rome, according to Varro, begins on January 1, 1926, Julian calendar.

The year 2586 of the Japanese era, being the 15th year of the period Taisho, begins on January 1, 1926, Gregorian calendar.

The year 2238 of the Grecian era, or the era of the Seleucidae, begins in the present-day usage of the Syrians on September 1, 1926, or on October 1, 1926, Julian calendar, according to different sects; but in the ancient usage of Damascus and Arabia Petraea the year began with the vernal equinox.

The year 1643 of the era of Diocletian begins on August 29, 1926, Julian calendar.

The year 1345 of the Mohammedan era, or the era of the Hegira, begins at sunset on July 11, 1926, Gregorian calendar.

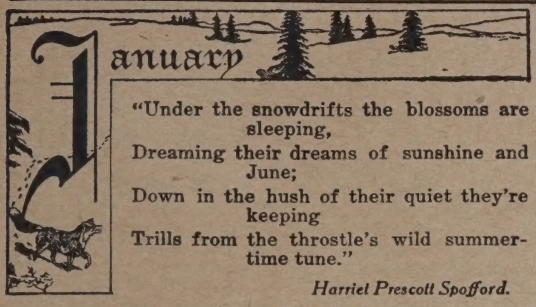
C is the Cuckoo, so plaintive and wise,
Hear him foretell the rain! "Kow-kow-koo-koo" he cries.

D is the Dipper, who loves the water cold
Or rushing mountain streams, where he swims and dives, I'm told!



"Under the snowdrifts the blossoms are sleeping,
Dreaming their dreams of sunshine and June;
Down in the hush of their quiet they're keeping
Trills from the throstle's wild summer-time tune."

Harriet Prescott Spofford.

EVERY YEAR A JANUARY THAW!

Beware
that January thaw—that annual pest!
Wet feet—damp clothing—
chilled to the bone—
Hot—headachy—sneezes—tears—
Oh, such a cold! and coughing too—
Sore throat—then that familiar
Cold and grippy feeling—
Maybe "flu"—
or bronchitis—or pneumonia!—
Coughing night and day—
No sleep—no appetite—
just miserable!

Stop it quickly—
Take a real remedy
for a real cough or cold!—
CHAMBERLAIN'S COUGH REMEDY!
That's the best—
Phone your dealer—
He'll send it quickly—
Coughing ceases—headache's gone!

Feel good again—
Let's have something to eat!

PLANETS AND STARS IN JANUARY, 1926

Mercury is morning star all this month, rising about one hour before the sun during the first half of the month. Venus is a big bright star in the southwestern skies each evening, setting about 8:40, being in conjunction with the moon on 16th. Mars is morning star and is close to Mercury most of month, rising about 5 o'clock A. M. and in conjunction with moon on the 11th. Jupiter is too close to the sun for observation all this month, being in conjunction with sun on 24th. Saturn is morning star about two hours higher in the eastern skies than Mars, rising about 3 o'clock. As Uranus and Neptune are never visible to the naked eye, we will not give any account of them. Fixed Stars: The dog star, Sirius, rises in the east each evening about 5:30. The bright and big star Capella is overhead at 9:30 P. M.

GENERAL WEATHER FORECAST, JAN. 1926

1st and 2nd, unsettled period; cloudy and unpleasant with rain or snow in middle states and great lake region; cold wave in the west and northwest. 3rd to 5th, cold wave. The severest cold will be experienced in the west and north with freezing weather reaching near the Gulf coast. 6th to 8th, cloudy and stormy. This will be one of the worst storms of the month, accompanied with cold rains, turning to sleet and snow in many middle and northern states with very damp, disagreeable conditions in the south. 9th to 11th, cold wave and generally fair; moderating and becoming cloudy in the far west on the 11th. 12th and 13th, sudden change to cloudy and stormy. 14th to 16th, fair and colder with brisk, northerly winds. 17th to 19th, mild and unsettled period with light rains or snows, turning colder in the northwest on the 19th. 20th and 21st, fair and colder. 22nd to 25th, storm period; high winds, accompanied with snow in middle and northern states and rains in the Gulf region. 26th to 29th, fair and moderate cold wave; rising temperature and increasing cloudiness in the west on the 29th. 30th and 31st, storm period; rain in the south and snow and very stormy weather in middle and northern latitudes. Both temperature and precipitation for the month will be above the average.

FARM AND GARDEN BULLETIN

JANUARY--Best time to kill pork, beef and other animal meat is from 1st to 7th and 29th to 31st; worst time 14th to 20th. Set hens and start incubators on the 25th, 26th and 27th. Castrate live stock on the 15th and 16th. Fish will bite best on 16th and 17th. Best time of month to set fruit trees, prune vines and graft trees is from 14th to 20th. Best time to make soap is on the 15th and 16th.

RULING SIGNS

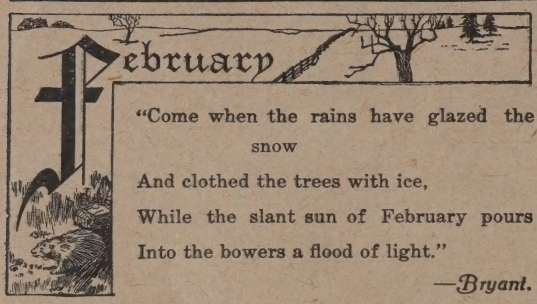
Capricornus rules up till the 20th; Aquarius, 21st to 31st; both unfavorable signs. Lucky days this month are: the 27th, 28th and 29th. Unlucky days the 13th, 14th and 15th.

IMPORTANT NOTICE---READ THIS!

Under the heading of "Farm and Garden Bulletin" we give each month valuable information - "When to plant and harvest, handle cattle, set hens, start incubators, etc." These monthly bulletins are good in all sections of the United States, varying with, and depending upon climate and latitude. Wait until the regular planting time comes for your own locality, then follow the "Bulletin" for that month. See opposite page for "Light and Dark Moons in 1926."

E is the Eagle, so lordly and grand,
He's our National Bird, loved by all in our Land.

F is the Fire-bird, whistling so merrily,
Building his hanging nest, working so cheerily.



"Come when the rains have glazed the snow
And clothed the trees with ice,
While the slant sun of February pours
Into the bowers a flood of light."

—*Bryant.*

PLANETS AND STARS IN FEBRUARY

Mercury is near the sun all this month and will not be visible. Venus is too close to the sun for observation this month. Mars is morning star rising about 3 A. M. Jupiter is morning star, but too near the sun for observation until near end of month. Saturn is morning star in the Constellation Libra. Fixed Stars: Capella is overhead at 7 P. M. Sirius overhead at 9 P. M. Castor and Pollux are overhead at 10 P. M. Vega sets in N. W. at 6:30 P. M.

GENERAL WEATHER FORECAST, FEB. 1926

1st to 3rd, storm period; rains turning quickly to sleet and snow and blizzards in northern states and rain and thunder in the south. 4th, fair over central valleys; unsettled in the west and east. 5th to 7th, storm period. This will be a period of marked intensity and far reaching, embracing both a Venus and Mars disturbance. Look for much bad weather in general with cold weather in northern and northwestern states. 8th to 10th, general cold wave, with bitter northwesterly winds reaching down to the Gulf regions. 11th to 13th, unsettled period; rainy weather in the south and local snows in the middle and northern states with fair and pleasant conditions in states of the Rocky Mountains and Pacific slope. 14th to 16th, cold wave with mercury 20 below zero or lower in northern and western states. 17th to 19th, unsettled period; cold weather with sleet and snow in the west and north, with cold misting rains in the south. 20th to 23rd, cold and frosty; unsettled in Rocky Mountain region and in New England states. 24th to 26th, mild period; easterly to southerly winds and generally fair. 27th to 28th, storm period with Full Moon added. A general bad spell of weather indicated. Mean temperature below and precipitation above normal for the month.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

FEBRUARY--Best time to plant corn and Irish potatoes is from 1st to 10th. Best time this month to sow peas and plant beans is on the 22nd and 23rd. Sow grass and clover seed on 12th to 19th for best results. Best time to sow flower seeds is on 15th and 16th. Kill pork, beef and other animal meat from 1st to 7th. Set hens and start incubators on the 22nd and 23rd, these days being the best of the year 1926. Good time to fish on the 13th and 14th. Castrate live stock on the 12th and 13th. Good time according to the Moon to set fruit trees, prune vines and graft trees from 12th to 20th. Good time to plant onions and sow beets and turnips on 2nd and 3rd. Best time to make soap is on the 13th and 15th. Trim hair, so it will grow fast on the 12th, 13th and 14th, also good time to shear sheep so the wool will grow fast.

RULING SIGNS

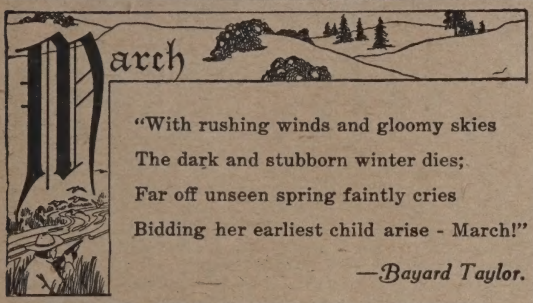
Aquarius rules from 1st to 18th and Pisces 19th to 28th; Aquarius barren and Pisces fruitful. Lucky days this month are the 26th, 27th and 28th. Unlucky days 11th, 12th and 13th.

FEBRUARY--When it rains in February, it will be temperate all the year.—*Spanish Proverb.*

An unpeaceable man hath no neighbor.
—*Italian Proverb.*

**G is the Gnat-catcher, very useful to man,
For he eats all the gnats that he possibly can.**

**H is the High-hole, a friendly little chap,
Working hard on his job, with his "tap-tap-tap."**



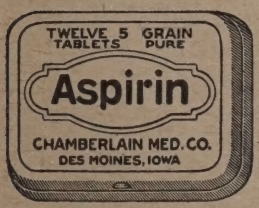
"With rushing winds and gloomy skies
The dark and stubborn winter dies;
Far off unseen spring faintly cries
Bidding her earliest child arise - March!"

—*Bayard Taylor.*

MARCH—THE PNEUMONIA MONTH!

More people are victims of pneumonia in March than at any other one time of the year.

MARCH—THE ASPIRIN MONTH!



The greater the danger, the more need of caution!

ASPIRIN—for colds and sudden chills! A feeling of warmth and comfort follows its use.

Aspirin—Useful and valuable also for neuralgia, neuritis, lumbago and rheumatism, and for the reduction of temperature in certain feverish conditions.

Aspirin—for business people!—who must keep themselves fit for their daily tasks without loss of time and money. For periodic pains, a business woman finds it a grateful help.

Aspirin—for home people. To a busy mother, responsible for her household duties and for the care of her family, it is a dependable aid; for those sudden seizures of pain that so often occur in the night time, Aspirin gives quick and grateful relief.

AN ASPIRIN TIP

For a rough and inflamed throat dissolve several tablets in water and use frequently as a gargle.

Ask for the CHAMBERLAIN package of Aspirin when you buy, and insist upon it.

1st--Because it is a pure product, as are all the articles of the CHAMBERLAIN line.

2nd--The Chamberlain "family size" contains 36 tablets, where others contain only 24—a more advantageous buy.

Aspirin—on every Home Medicine Shelf!
—in every vest pocket!
—in every woman's hand bag!

PITY YE POOR ED.

It is reported that one of the fastidious newly married ladies of this town kneads bread with her gloves on. This incident may be somewhat peculiar, but there are others. The editor of this paper needs bread with his shoes on; he needs bread with his shirt on; he needs bread with his pants on; and unless some of the delinquent subscribers of this "Old Rag of Freedom" pony up before long, he will need bread without anything on, and Wisconsin is no Garden of Eden in the winter.

—*Melrose (Wis.) Chronicle.*

PLANETS AND STARS IN MARCH, 1926

Mercury is evening star this month, being best seen about the 14th. Venus is morning star. Mars is morning star, rising about 2 to 3 o'clock, in conjunction with moon on the 9th. Jupiter is morning star also, rising about 5 o'clock. Saturn is morning star, rising about 11 P. M. and reaching meridian about 4 A. M. Fixed Stars: The big star, Sirius, (Dog Star) sets in southwest at midnight. Castor and Pollux (twin stars) overhead at 7 P. M.

GENERAL WEATHER FORECAST, MAR. 1926

1st to 3rd, fair and frosty east of the Rocky mountains; unsettled with rain on the Pacific slope. 4th to 6th, storm period; heavy wind and rain storms over southern, central and eastern sections; colder with snow storms in western and northern states; fair on Pacific slope. 7th and 8th, cloudy and windy over central valleys with local showers; fair and colder in the west and northwest. 9th and 10th, unsettled and continued stormy in middle and eastern sections and fair and colder with northwesterly winds in most sections west of the Mississippi river. 11th to 14th, fair period; quite cold on the 11th and 12th, but becoming mild and pleasant on the 13th and 14th, with unsettled conditions in the west and rain on Pacific slope. 15th to 19th, generally cloudy or partly cloudy and unsettled; rain in Texas and northeastward to Tennessee, especially on the 15th and 19th. 20th to 22nd, colder, with high northwesterly winds. 23rd to 26th, mild period; generally fine weather for March, becoming stormy in far west on the 26th. 27th to 31st, partly cloudy to cloudy and unsettled; general rains over middle and southern states on the 28th and 31st; cold and snowy in northwestern states. Temperature for the month slightly above average and precipitation about normal.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

MARCH--Best time this month to plant Irish potatoes and other root crops is from 1st to 5th and 29th to 31st, inclusive. Sow peas, grass and clover and plant beans on the 12th, 13th, 14th, 21st and 22nd. Extra good days to sow flower seeds is the 14th and 15th. Plant melon and cucumber seeds on 19th and 20th. Plant radishes, beets and put out onion sets on the 29th and 30th. Best time to graft trees and prune vines is from 14th to 21st. Kill pork and other animal meat from 1st to 7th and 29th to 31st. Set hens and start incubators on the 21st and 22nd. Fish will bite best on the 12th and 13th. Castrate live stock on 11th and 12th. Make soap on the 15th and 16th. Shear sheep and trim hair 12th to 16th to cause rapid growth.

RULING SIGNS

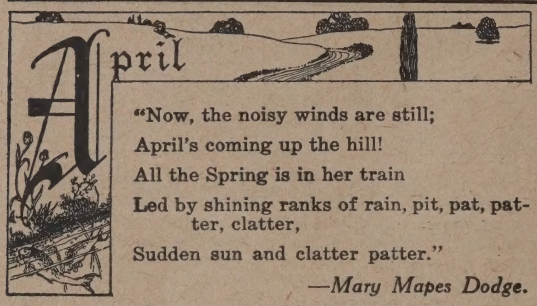
Pisces rules from 1st to 20th; Aries 21st to 31st. Pisces, a fruitful sign; Aries, not favorable. Lucky days this month are the 28th, 29th and 30th. Unlucky days, the 12th, 13th and 14th.

MARCH---They say March wind and May sun make clothes white and maids dun.

Let honesty and industry be thy constant companions. —*Benjamin Franklin.*

I for the Ibis, of frogs very fond,
Which he scoops with his bill from their home in the pond.

J is the Jack-daw, who lives at his ease,
On the farmer's grain; and he never asks "please!"



"Now, the noisy winds are still;
April's coming up the hill!
All the Spring is in her train
Led by shining ranks of rain, pit, pat, patter, clatter,
Sudden sun and clatter patter."

—*Mary Mapes Dodge.*

OUR DAILY WAILS AND WOES

Those little mishaps
and minor accidents—
Sudden pains and sicknesses,
headaches and cramps—
Burns, knocks—bruises, sprains—
bites and stings—
Cut fingers, stubbed toes
skinned noses, barked shins—

These are of almost
daily occurrence
in our busy, complex lives!

Put Chamberlain's "Package" Medicines, Home Drugs and Pharmaceuticals on your Home Medicine Shelf. Familiarize yourself with the Chamberlain line, then ask for Chamberlain's, and insist upon having Chamberlain's, when you buy.

Why? Because of their:

Quality - of the highest - only the best drugs obtainable are used in the making.

Service - prompt, efficient and pain-easing for accidents and illnesses.

Economy - saving loss of time to busy people - also often avoiding a burdensome doctor bill.

WHY "PATENT" OR "PACKAGED" MEDICINES!

Broadly speaking, the medicines you use may be divided into two classes:

1st--Those which are put up for you by the druggist on a doctor's prescription.

2nd--Those which you buy already put up in "package" form of your druggist or general store dealer.

These "Packaged" medicines are sometimes referred to as "Proprietary" or "Patent" medicines, because each package has printed on it the trade-mark or trade-name of the medicine and the name of the proprietor of such trade-mark or trade-name, for whom or by whom the medicine is put up and marketed to the Public.

There are a large number and variety of these "Packaged" medicines, which are put up in package form for general sale, because it has been found from experience, in probably hundreds of thousands of cases, that this particular prescription or recipe from which this medicine is made, has benefited people like yourself for the symptoms or ailments printed on the package.

PLANETS AND STARS IN APRIL, 1926

Mercury is in Pisces and is favorable for viewing as morning star latter part of the month. Venus continues as morning star in Aquarius, rising about 3:30 A. M. Venus will be near Mars and Jupiter all the month. Mars is morning star in Capricornus, rising about 3:30 A. M. Jupiter is morning star in Capricornus also and will be close to Mars all the month. Saturn is morning star, crossing meridian about 2 A. M. Fixed Stars: The big Dog Star Sirius sets in S. W. at 10 P. M. Vega rises in northeast at 8 P. M.

GENERAL WEATHER FORECAST, APRIL, 1926

1st, cloudy with showers east of Mississippi river; fair and frosty in western states. 2nd to 4th, cool wave with light frosts as far south as Oklahoma, Arkansas and Tennessee. 5th and 6th, fair and much warmer; low barometer in Rocky Mountain regions. 7th to 9th, storm period; very high winds will accompany the storm, which will be especially severe through the middle west, but will be very generally felt. 10th and 11th, fair and pleasant. 12th and 13th, thunder showers in middle and southern states, with snow in Montana and Idaho; warm wave in the southwest; danger of tornadoes in Oklahoma and Kansas or vicinity. 14th to 18th, mild period; high range of temperature over the west and south, Ohio river valley and south Atlantic states; showers over the Missouri river valley on the 15th and 18th and in New England states on the 17th and 18th. 19th to 21st, unsettled period; showers and thunder storms over southern states on 19th and 20th and lake states and eastward on the 21st. 22nd to 26th, fair period; frosty in northern states on the 22nd and 23rd, becoming warm and growing weather on the 25th and 26th. 27th to 30th, warm wave especially over the south and southwest; heavy showers in Wisconsin, Missouri, Kentucky, Tennessee and in portions of Arizona and New Mexico. Temperature and rainfall for April above normal.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

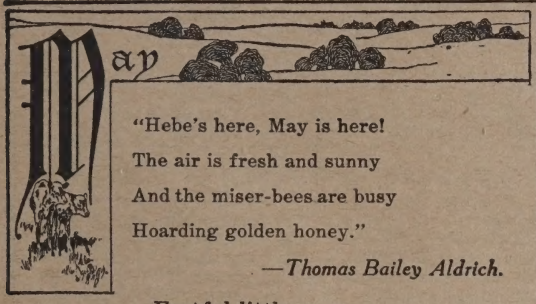
APRIL--Best time in April to plant Irish potatoes, sow beet and turnip seeds and put out onion sets is on the 9th and 10th. Sow peas, grass and clover seeds and plant garden peas and beans 12th and 13th, also on the 17th, 18th and 19th. Sow flower seeds, melons and cucumber seeds on 15th and 16th. Best time to set out trees, graft trees and prune vines is from 12th to 19th. Plant corn on the 9th and 10th to produce best yield of grain. Kill pork, beef and other animal meat from 1st to 5th and 28th to 30th, inclusive. Set hens and start incubators on the 19th. Fish will bite best on the 9th and 10th. Castrate live stock on 8th and 9th. Graft and set out trees and prune vines from 12th to 19th. Bed sweet potatoes on the 9th and 10th. Best time to make soap is on the 12th, 13th and 14th. Shear sheep and trim hair on the 13th and 14th, so as to cause rapid growth.

RULING SIGNS

Aries rules from 1st to 19th; Taurus, 20th to 30th; Aries, unfavorable; Taurus fair. Lucky days this month are 26th, 27th and 28th. Unlucky days the 11th, 12th and 13th.

K is the King-bird, who fights at his best When unfriendly birds invade his home nest.

L is the field Lark, whose clear, silvery call, floats o'er our meadows from Spring until Fall.



"Hebe's here, May is here!
The air is fresh and sunny
And the miser-bees are busy
Hoarding golden honey."

—*Thomas Bailey Aldrich.*

MOTHERS: Fretful little ones who lag at their play, need careful watching.

Croup comes suddenly, and is an ever-present fear with many mothers.

Whooping Cough, highly contagious, protracted over a period of about 40 days, often leaves a lingering cough that debilitates and saps the strength of the little ones, who grow frail and wan under its influence.

Changeable weather and exposure to cold and dampness often results in bronchitis, leaving a racking, weakening and lingering cough.

A real remedy for real coughs and colds is Chamberlain's Cough Remedy—keep it always on your Home Medicine Shelf.

IODINE - One of the most valuable antiseptic agents of today.

A powerful germicide, it should be one of our first thoughts in cases of accidents.

Is really a household necessity on every Home Medicine Shelf.

CHAMBERLAIN'S TINCTURE IODINE

U. S. P.

"U. S. P." on any Chamberlain "Package" means that the contents are made in strict accordance with the formula as prescribed by the U. S. Pharmacopoeia, of drugs and chemicals of the highest standard, strength and purity.

For cleanliness and convenience in using, a glass applicator is attached to the cork. The brown stain of the Iodine soon disappears.

Iodine, diluted with one-half lard, gives the greatest relief in cases of chilblains. When applied to joints and muscles affected with chronic rheumatism, it is of great value. In cases of leg ulcers, it will be found very efficacious by thoroughly painting the affected area with Iodine. Use promptly for stings, bites, scratches and abrasions of the skin.

In two sizes - ½ ounce and 1 ounce packages.

Chamberlain's Iodine for purity and strength! Keep it on your Home Medicine Shelf.

PLANETS AND STARS IN MAY, 1926

Mercury will be morning star again all this month. Venus is morning star and is becoming very large and bright in the eastern skies. Mars is morning star, rising about 2 o'clock in middle of month. Jupiter is morning star, rising near mid-night and reaching meridian about 6 A. M. Saturn is in opposition with sun on the 14th and rises at sunset and shines all night. Fixed Stars: The big Dog star, Sirius, sets in the southwest at 8 P. M. and the big, bright star, Capella, sets in northwest about 11:50 P. M.

GENERAL WEATHER FORECAST, MAY, 1926

1st and 2nd, violent thunder storms. Storms of this class are apt to be severe though very local. 3rd to 5th, cool, pleasant period, possibly showers in some localities on the 3rd, especially in eastern states. 6th to 11th, delightfully pleasant, warm, southerly winds and sunshine, but too dry for grain in western and northern states; showers in some southern states on the 7th and 8th. 12th to 14th, daily showers and heavy thunder storms over central valleys and middle west; fine rains over the south from Texas eastward. 15th to 17th, cool wave; killing frosts in upper Missouri and upper Miss. river valleys and cool nights in middle and southern sections. 18th to 24th, dry and windy period for northern half of the United States; heavy downpours of rain, especially in the middle south on the 19th and 20th, and in eastern states on the 21st and 22nd. 26th to 28th, storm period; great electrical displays and heavy rains over the south and middle sections; danger of tornadoes in Texas, Oklahoma, Kansas and Missouri or in sections nearby. 29th to 31st, cooler period for middle and northern states with showers in the west and south. The month will be about normal in warmth. The rainfall will be excessive south and east; deficient north and west.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

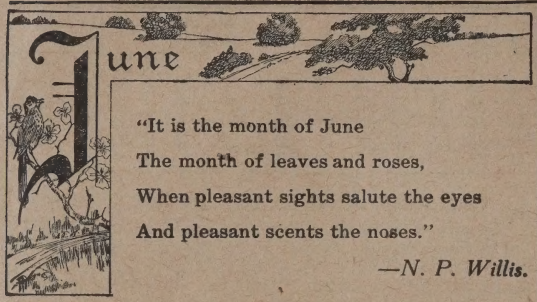
MAY--Best time to plant Irish potatoes, sow beet and turnip seeds and set out onions is on the 6th and 7th. Sow peas, grass and clover seeds and plant beans on the 15th and 16th. Sow flower seeds on the 13th, 14th, 15th and 16th. Plant melon, cucumber, cabbage, lettuce, kale and tomato seeds on the 13th to 16th, inclusive. Best time to plant corn is from 6th to 9th. Best time of month to kill weeds and briars is on 17th and 18th. Kill pork and other animal meat from 1st to 5th and 27th to 31st. Set hens and start incubators on the 22nd, 23rd and 24th. Best days to fish are the 6th and 7th. Castrate live stock on the 5th and 6th. Make sauer kraut on the 6th and 7th. Best time to make soap is on the 13th and 14th. Shear sheep and trim hair so it will grow rapidly, on the 12th to 15th, inclusive. Set out cabbage and tomato plants, 15th and 16th.

RULING SIGNS

Taurus rules from 1st to 20th; Gemini, 21st to 31st; Taurus fairly good; Gemini poor. Lucky days in May are the 26th, 27th and 28th. Unlucky days, the 10th, 11th and 12th.

M for the Martins, whose sweet twitter at dawn, comes from the bird house nearby - on the lawn.

N is the Night-hawk, who shuns the bright day, but comes forth at night, in search of his prey.



"It is the month of June
The month of leaves and roses,
When pleasant sights salute the eyes
And pleasant scents the noses."

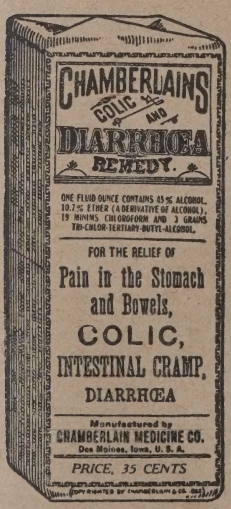
—*N. P. Willis.*

Many of the ailments of childhood are trivial and an experienced Mother soon learns to distinguish between the few that are serious enough to call in a physician, and those others which her common sense tells her she can readily and ably take care of with the aid of good family remedies, which she knows how to administer and can depend upon for certain results.

So she has her favorite "packaged" medicines on her Home Medicine Shelf!

FOR MORE THAN
HALF A CENTURY

CHAMBERLAIN'S



COLIC AND DIARRHOEA REMEDY

Has relieved the stomach and intestinal disorders of people everywhere.

It is reliable, and successfully used for diarrhoea, dysentery, sudden and severe pains in stomach and bowels; for intestinal cramp, colic, weakening diarrhoea, and for intestinal disorders arising from improper food or overeating, change in water, diet or climate.

50 years in use,
50 years dependable,
and when needed worth
50 times its cost for a single dose.

MOTHERS, just a few drops in a little sweetened water instantly relieve summer complaint and those stomach aches and pains so inseparable from the years of childhood.

Take it with you when you travel,
Keep it always in your home.

PLANETS AND STARS IN JUNE, 1926

Mercury will be too near the sun this month for observation. Venus is still a big bright morning star in the eastern skies for two hours before day. Mars is morning star, reaching meridian about 7 A. M. Jupiter is still morning star, rising about 11 P. M. Saturn is evening star and is about two hours high in the east at dusk, reaching meridian about 10 P. M. Fixed Stars: Capella and Procyon are bright stars, Capella in the northwest and Procyon in the west, setting about 9:30 P. M.

GENERAL WEATHER FORECAST, JUNE 1926

1st to 3rd, mild, pleasant period in the south and east, but unsettled in western and northwestern states. 4th to 9th, warm period; fine, growing weather, with daily showers and thunder storms, especially over the south and southwest; windy weather with light local showers from Montana to the great lakes. 10th to 14th, hot wave and generally fair; dry and dusty in Kansas, Missouri, Illinois, Wisconsin, Iowa and Michigan; light showers and thunder storms in Texas, Oklahoma, Georgia and Florida. 15th to 17th, storm period; high winds and severe local storms, especially through the middle Mississippi river valley and Gulf states; fair and generally pleasant in the west and northwest. 18th to 20th, dry and windy period from Washington to the great lakes; heavy rains and violent thunder over the south and east; very warm in the southwest. 21st to 25th, mild pleasant period; southerly winds and generally fair, except in Texas and the east Gulf states, where showers will occur. 26th to 28th, Mercury storm period, with Full Moon added. This will be a dangerous period and will bring heavy storms of rain, wind and hail. 29th and 30th, generally fair and slightly cooler, except showers in the east. Temperature for June will be above normal. The rainfall will be excessive south and deficient north.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

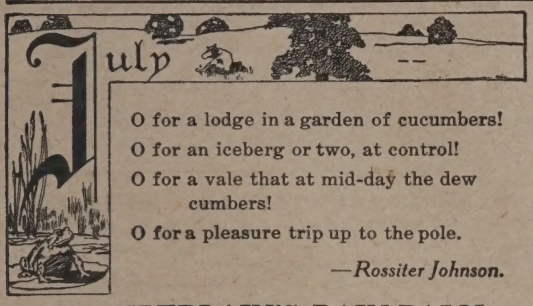
JUNE--Best time in June to plant corn is from 2nd to 9th. Plant Irish potatoes, sweet potatoes, onions, beets, radishes, turnips, peanuts and parsnips on the 2nd, 3rd, 7th and 8th. Sow peas, millet, clover and grass seeds for hay crop on the 11th and 12th, these two days being the best days of the year. Sow flower, melon and cucumber seeds on the 9th, 10th, 11th and 12th. Best days of month to destroy weeds, briars and bushes is on the 13th, 14th and 15th. Set hens and start incubators on the 19th, 20th and 21st. Fish on the 2nd, 3rd, 29th and 30th. Set out cabbage and tomato plants on the 11th and 12th. Make sauer kraut on the 2nd, 3rd, 29th and 30th. Best time to butcher is from 1st to 4th and 26th to 30th. Castrate live stock 1st and 2nd and 29th and 30th. Make soap, shear sheep and trim hair so as to make same grow fast, the proper days being the 10th, 11th and 12th.

RULING SIGNS

Gemini rules from 1st to 20th; Cancer, 21st to 30th; Gemini, a poor sign; Cancer, quick and very favorable. Lucky days this month are the 24th, 25th and 26th. Unlucky days, the 9th, 10th and 11th.

O is the Oven-bird, who wears a pale vest, Quaintly spotted with brown. He is named from his nest.

P is the Phoebe, very friendly and tame, Who waggles his tail as he calls his own name.



O for a lodge in a garden of cucumbers!
O for an iceberg or two, at control!
O for a vale that at mid-day the dew cumbers!
O for a pleasure trip up to the pole.

—*Rossiter Johnson.*

CHAMBERLAIN'S PAIN-BALM

CHAMBERLAIN'S
PAIN-BALM
LINIMENT
(IN TUBE FORM)
AN EXTERNAL APPLICATION TO RELIEVE
RHEUMATISM
Lame Back, Sciatica, Neuralgia, Lumbago, Gout, Sprains and Swellings, Chilblains, Frostbites, Headache, Backache, Lameness and Soreness of the Muscles caused by violent exercise or injury
MANUFACTURED BY
CHAMBERLAIN MEDICINE CO.
DES MOINES, IOWA, U.S.A.

All the characteristic pain-easing qualities of Chamberlain's Pain-Balm, liquid, are retained in this new tube-form package.

Agreeable to use, cleanly, stainless and penetrating, it scatters congestion and reduces painful inflammations.

For lumbago, deep-seated Rheumatic and neuralgia pains, lame back, stiff neck, painful soreness in muscles and joints, rub it well into the aching spot. You will find that Chamberlain's Pain-Balm does Rub-away pain!

Very helpful, pain-easing and quickly healing for sprains and strains. It takes the "ache" out of tired, over-worked muscles and is very soothing as a rub down, after any athletic exertion. Chamberlain's Pain-Balm, either in tube-form or liquid, is an important addition to your Home Medicine Shelf.

Ask your druggist for it.

What ho!
We want every-one
to know
That ease and comfort
for foot and corn—
bunions too—
Are quickly found in
CHAMBERLAIN'S
HANDY CORN PLASTER!
Why suffer
with aching tired feet—
corn pestered—
Send for
Handy Corn Plaster
and enjoy
the comfort of painless feet!
Easily applied - only 10c.

PLANETS AND STARS IN JULY, 1926

Mercury will be evening star all this month. Venus is still a big bright morning star. Mars is morning star all this month. Jupiter is morning star in the constellation, Capricornus, rising about 9 P. M. and reaching meridian at 2 A. M. Saturn is evening star in Libra, reaching meridian at 7:30 P. M. in middle of month Fixed Stars: Vega is overhead at 11 P. M., Capella rising in the northeast at the same hour.

GENERAL WEATHER FORECAST, JULY, 1926

1st to 4th, fair and hot period; very drouthy in the southwest, except in Texas. 5th to 7th, general storm period. The worst of the storm will take place on the 5th and 7th. The storms will be of local character. 8th and 9th, fair and slightly cooler. 10th to 12th, very sultry and storms of local character in western states and fair in middle and eastern states. 13th to 15th, unsettled, with local rains in southern and eastern sections and fair in northwestern states. 16th to 19th, storm period; short and sharp thunder storms through the southern and middle states and in portions of the Ohio river valley and lake region; fair in far western and southwestern states. 20th and 21st, fair and much cooler generally. 22nd to 24th, storm period. This is a Venus and Mars period and will bring much stormy weather and more rain than usual. 25th to 27th, cool wave; northerly winds and fair. 28th and 29th, sharp electrical displays and frequent showers over the Mississippi river valley states; fair in western sections and cooler. 30th and 31st, clear and hot. Dry in southwestern states, especially California, Utah, Nevada, Arizona and New Mexico. Earthquake shocks probable this month about the 9th and 24th. The month will be warmer than usual with rainfall about normal.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

JULY--Best time this month to plant corn is from 1st to 7th and 27th to 31st. Plant Irish potatoes, sweet potatoes, onions, beets, peanuts, turnips, radishes, parsnips and other root crops on the 4th, 5th, 27th and 28th. Sow peas, millet, grass and clover seeds and plant beans on the 9th, 10th, 16th and 17th. Sow flower seeds, melon, cucumber and squash seeds on the 8th, 9th, 10th, 16th and 17th. Best time this month to destroy weeds, briars and bushes is the 11th and 12th. Best time to butcher is from 1st to 3rd and 25th to 31st. Fish and make sauer kraut on the 27th and 28th. Set hens and start incubators on the 19th, 20th and 21st. Set out cabbage and tomato plants on the 9th and 10th. Castrate live stock on the 26th and 27th. Make soap on the 10th and 11th. Trim hair and shear sheep so wool will grow fast, on the 10th, 11th and 12th.

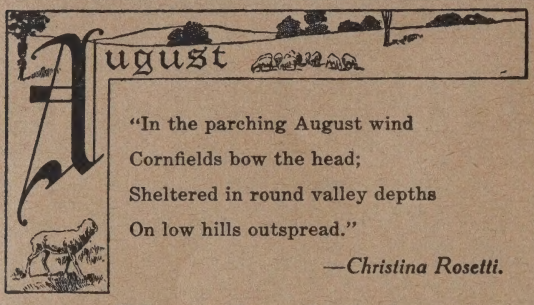
RULING SIGNS

Cancer rules from 1st to 21st; Leo from 22nd to 31st; Cancer, a favorable sign; Leo, unfavorable. Lucky days in July are 23rd, 24th and 25th; unlucky days, 8th, 9th and 10th.

Remember this—it is not possible for you to be happier to-morrow than you can be to-day. Invest your time, don't just spend it.

Q is the Qua-bird, quite at home in a marsh. On gentle fish they feed, but the fish find it harsh.

R is the Red-start, a friendly little fellow, He's a dashing bit of color; his song is clear and mellow.



"In the parching August wind
Cornfields bow the head;
Sheltered in round valley depths
On low hills outspread."

—*Christina Rosetti.*

Chamberlain's

Beauty Aids for Busy Women

Probably our most important beauty aid is good health, which means pure blood supplying nourishment to all parts of our frames. For this the blood stream must be kept free of poisons; and as constipation is the most common and most prolific source of poison in the blood stream, so our first warning is against this constipation, this common enemy to good health and good looks.

Chamberlain's Tablets are a wholesome and thoroughly cleansing cathartic that keeps breath and stomach sweet, a healthily active liver, and establishes regular and satisfactory bowel movements. They thoroughly cleanse and stimulate the intestinal tract, and allow no poisonous accumulations that should be regularly eliminated. Pleasant in action and effect. If you have never tried them, send for a free sample. Your druggist sells them, only 25c.

Next in importance are those good looks allies—so often neglected, yet ever responding quickly to a little attention. Our skin, hair, teeth, hands and feet! Yes, feet, for aching feet and painful corns affect the expression of our faces as well as our posture, destroying peace of mind and poise of body. Good feet are an important good looks ally, and Handy Corn Plaster is a real "beauty aid."

CHAMBERLAIN'S TOOTH POWDER

Removes stains and discolorations—preserves teeth

Whitens and preserves the teeth
Hardens and heals the gums
Sweetens the mouth
Counteracts acidity

That is just what you want your teeth cleanser to do for you, and it must do all of that to give you satisfactory results. Chamberlain's Tooth Powder penetrates all the crevices of your teeth, prevents the formation of tartar, removes the harmful film which holds the particles of food substances and forms the destructive acids.

Its cleanly, refreshing, after-using taste in the mouth is one of its salient qualities.

PLANETS AND STARS IN AUGUST, 1926

Mercury will be invisible during early part of month, but will become visible as morning star about the 25th. Venus is a big bright star in the northeast, rising about 3 A. M. Mars is in Aries and is morning star, rising about 10 P. M. and reaching meridian at 4:45 A. M. Jupiter is an all night star, rising just at sunset in the southeast. Saturn is evening star, setting about 11:30 P. M. Fixed Stars: Vega is over head at 9 P. M. while Capella rises in northeast at the same time.

GENERAL WEATHER FORECAST, AUG., 1926

1st and 2nd, very sultry, with violent thunder storms in northern states and in the middle west; fair and hot in Rocky Mountain region and Pacific slope. 3rd to 5th, mild and pleasant for the season with showers in eastern states on the 3rd. 6th to 10th, intense heat and fair; light showers in Arizona, Utah, Colorado and New Mexico. 11th to 14th, Venus storm period, with moon on equator; a dangerous period on land and sea, furious winds, lightning, rain and hail in many places, damaging growing crops. Many dry sections will get rain at this time. 15th and 16th, fair and cooler over middle, western and northern states, showers in the southeast and along the Atlantic coast. 17th to 20th, hot and sultry period; dry westerly winds in western states and local showers in the lake region and lower Ohio river valley. 21st and 22nd, very sultry, followed by furious winds and severe thunder storms, especially over states of the Central valleys; fair in the far west. 23rd to 25th, fair and cooler generally; dry in the southwest. 26th to 29th, cloudy and showery over a large territory, but many sections will not get sufficient moisture and growing crops will need rain. 30th and 31st, clear and hot. Month will be about average in temperature with deficient rainfall.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

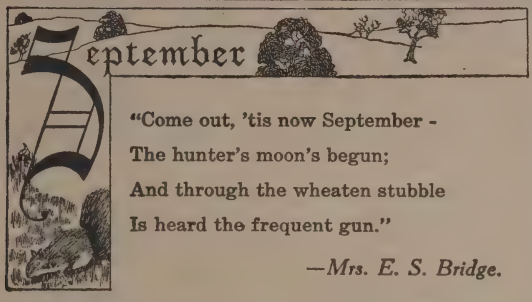
AUGUST--Best time to plant late corn is from 1st to 4th. Plant Irish potatoes, sweet potatoes, onions, beets, radishes, turnips, parsnips and other root crops from 1st to 6th and 23rd and 24th. Sow peas, millet, grass and clover seeds from 12th to 14th, inclusive. Sow flower seeds, melon, cucumber and squash seeds on the 12th, 13th and 14th. Best time of month to destroy weeds, briars and bushes is on the 7th and 8th, the Moon's sign being in the heart on these days. Set hens and start incubators on the 18th, 19th and 20th. Kill pork and other animal meat from 1st to 3rd and 23rd to 31st. Make sauer kraut on the 23rd and 24th, the same days being favorable for fish to bite well. Set out cabbage and tomato plants on the 12th and 13th. Castrate live stock on the 23rd and 24th. Make soap on the 9th and 10th. Favorable time to trim hair so it will grow fast will be on the 9th, 10th and 11th; for slow growth, cut hair on 23rd and 24th.

RULING SIGNS

Leo rules from 1st to 22nd; Virgo, 23rd to 31st; Leo poor; Virgo favorable. Lucky days in August are 22nd, 23rd and 24th; unlucky days, 7th, 8th and 9th.

S for the cruel Shrike, a grim, gray butcher-bird, who never has a friend to give him a good word.

T is the Tit-mouse; he's a black-crested bird, not a bit like a mouse, so his name sounds absurd.



"Come out, 'tis now September -
The hunter's moon's begun;
And through the wheaten stubble
Is heard the frequent gun."

—*Mrs. E. S. Bridge.*

"A pleasing countenance is no slight advantage"
—*Ovid.*

CHAMBERLAIN'S TOILET CREAM
A Perfect Skin Beautifier

Price 50c

Cleanliness is the first essential of a good skin and Chamberlain's Toilet Cream is a thoroughly good cleansing cream and skin beautifier. Used daily as directed it not only preserves a good skin, but it so tones and nourishes a poor one that it becomes smooth and glowingly clear. It nourishes the tissues, helps wrinkles and sagging lines in face and neck, and should be patted well around the corners of the eyes, nose and mouth where the wrinkles come.

An oily skin is greatly improved by the use of a good astringent after thoroughly cleansing with Chamberlain's Toilet Cream. We recommend for this purpose Chamberlain's Oriental Cologne, Chamberlain's Violet Toilet Water, or Chamberlain's Bay Rum. All are excellent for the purpose.

CHAMBERLAIN'S ORIENTAL COLOGNE

Perfumes and toilet waters are more widely used than ever before. No toilet table is complete without them for aside from the delightful "amber scent of odorous perfume" they impart, they also possess valuable astringent qualities of advantage in the care of the complexion. An attractive bottle of generous size with distinctive label, price 50c.

CHAMBERLAIN'S VIOLET TOILET WATER

Fragrant, refreshing and astringent, Chamberlain's Violet Water is especially popular with those who love the delicate yet lasting perfume of the violet. It is put up in the same size of bottle as the Oriental Cologne and similarly priced, 50c.

"Beauty Chats" will be mailed free on receipt of your name and address. Send for it. It has many valuable suggestions on the care of our "good looks allies," skin, hair, hands and teeth.

PLANETS AND STARS IN SEPTEMBER, 1926

Mercury being in superior conjunction on the 19th will be invisible all the month. Venus is morning star in the eastern skies, rising about 4 o'clock. Mars is morning star, rising about 9 P. M. and reaching meridian 3 A. M. Jupiter is now evening star, being two hours high in the east at dusk. Saturn is evening star, setting about 9:30 P. M. in middle of month and reaching meridian in early afternoon. Fixed Stars: Vega is overhead at 7 P. M., with Capella rising in the northeast at the same time.

GENERAL WEATHER FORECAST, SEPT. 1926

1st and 2nd, fair and hot over middle and southern states; unsettled with showers in northern Rocky Mountain districts and in states of the great lake region. 3rd to 5th, storm period; light to moderate rains and thunder storms over the Missouri, Mississippi and Ohio river valleys; fair in eastern sections and very blustery in the northwest. 6th to 8th, mild and pleasant period in middle, northern and western states and thunder storms in east Gulf and south Atlantic states. 9th to 13th, very hot and sultry over the central valleys, southern and eastern states; unsettled with showers on north Pacific slope and states of the northwest on the 11th, 12th and 13th. 14th to 16th, storm period; very sudden and changeable with fierce storms of wind, rain and hail in many localities. Precipitation will be greatest in northeastern sections. 17th to 19th, unsettled, continued high winds and very stormy through middle and eastern sections, accompanied with rain and thunder; clearing and cooler in the northwest. 20th to 23rd, fair and cooler; light frosts in the northwest. 24th and 25th, windy and threatening. 26th to 28th, warm and threatening, followed by local showers. 29th and 30th, cool and fair. Month warmer than average, with a deficiency in rainfall.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

SEPTEMBER--Best days of the month to plant root crops, such as beets, turnips, is the 20th, 21st, 24th and 25th. Plant northern grown onion sets and sow onion seeds on the 20th, 21st and 24th. Best time of month to destroy weeds, briars and bushes is the 3rd, 4th and 5th. Set hens and start incubators on the 16th, 17th and 18th. Best time to fish this month is the 20th and 21st. Make sauer kraut on the 20th and 21st so it will be good and keep well. Best time to cut tobacco, cut hay, dig potatoes and pick fruit from trees so same will keep well is from 20th to 23rd. Try it and see. Best time to kill pork, beef and other animal meat is from 22nd to 30th. Sow wheat, oats and rye on the 8th, 9th and 10th. Castrate live stock on the 19th and 20th. Make soap on 7th, 8th and 9th, the same days being favorable for trimming hair so it will grow fast.

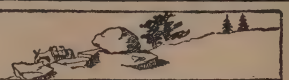
RULING SIGNS

Virgo rules from 1st to 22nd; Libra from 22nd to 30th; Virgo is favorable; Libra very good. Lucky days in September are 20th, 21st and 22nd; unlucky days the 5th, 6th and 7th.

U is the U-lu-la, who lives a funny way,
He hunts while we sleep, and sleeps all our day.

V is the red-eyed Vireo; how eager we are
to see, his gleaming eye as he darts by
and hear his song from the tree.

October



"At every turn the maples burn,
The quail is whistling free;
The partridge whirs and the frosted burrs
Are dropping for you and me.
Ho! hillyho! heigh O!
Hillyho!
In the clear October morning."

—*Edmund Clarence Steadman.*

"On the white wonder of dear Juliet's hand."
—*Shakespeare.*

CHAMBERLAIN'S HAND LOTION

Hands have a character of their own, and idle, useless hands lack attractiveness. Busy, helpful hands, working hands, patient, pains-taking hands, the hands of loving service and of toil, and the hands of working people may be kept pliant, comely and always presentable, in fact, always interesting, by the use of Chamberlain's Hand Lotion. Use it daily. It improves every hand it touches.

CHAMBERLAIN'S SHAMPOO

For a clean healthy scalp and better hair

Hair to be healthy must be kept clean and only healthy hair is beautiful. Dandruff is one of the worst foes of a good head of hair.

Chamberlain's Shampoo will keep the scalp and hair in the very pink of condition. It lathers freely, cleanses thoroughly, rinses out quickly and leaves hair fluffy, glossy and easily handled.

Chamberlain's Shampoo is so easily used, so reasonably priced and requires so little for a cleansing lather that it is the ideal shampoo for the home. It costs only 50c and will serve the entire family many times.

CHAMBERLAIN'S HAIR TONIC

A wonderful invigorator for the scalp and hair

No one wants to be bald and no one wants dull, lifeless, brittle hair. What everyone wants is an abundant crop of live, virile, attractive hair that will continue to grow in length and thickness year after year.

Chamberlain's Hair Tonic should be used directly following a shampoo as the scalp is then at its best and the tonic is almost immediately absorbed.

It stops falling hair, prevents dandruff and premature grayness and promotes an abundant, healthy growth. Apply direct to scalp; rub vigorously. In two sizes 50c and $1.00.

PLANETS AND STARS IN OCTOBER, 1926

Mercury will be evening star all the month, but not favorable for viewing well until near close of the month. Venus is still morning star. Mars is morning star, rising about 7 P. M. and reaching meridian at 1 A. M. Mars will be 15 degrees north of equator this month and is growing brighter each night. Jupiter is now a bright evening star, reaching meridian at 7:50 P. M. Saturn is evening star, setting about 7:30 P. M. Fixed Stars: The big star, Capella, rises in the northeast about 5 P. M. Sirius, the Dog Star, rises about midnight and reaches meridian about 5 A. M.

GENERAL WEATHER FORECAST, OCT. 1926

1st to 6th, mild, pleasant period. Fine weather for out-door work, except too dry for late crops or for seeding Fall grain. 7th and 8th, unsettled period; local, but quite severe thunder storms and showers over the southeast and cloudy with cool rains in northwestern states and on north Pacific slope. 9th to 11th, unsettled period; showers in the northwest on the 9th and in middle, southern and eastern sections on the 10th and 11th. 12th to 14th, continued unsettled with showers in middle and eastern sections and fair and cooler in the west and northwest, where heavy frosts will occur. 15th to 17th, cool wave; light to moderate frosts in middle and northern states. 18th and 19th, threatening weather followed by light showers over middle and southern states. 20th to 23rd, cool wave; freezing weather in northern states and light frosts as far south as the Gulf states. 24th to 26th, mild period. Weather unusually fine; bright days and frosty nights. 27th and 28th, sudden change to cloudy and very stormy; snow and wintry-like weather in Rocky Mountain regions and light to moderate rains in sections further east. 29th to 31st, cool wave; killing frosts as far south as the 35th parallel. Month will be warmer than usual, with precipitation slightly below average.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

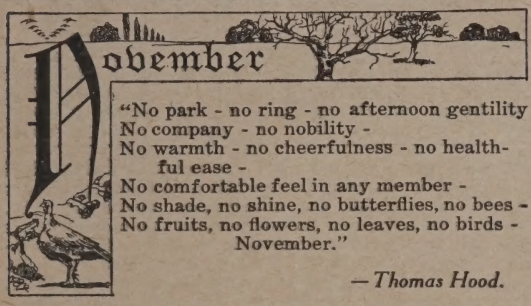
OCTOBER--Best time this month to put out onion sets and sow turnips is the 21st and 22nd. Best time to destroy weeds, briars and bushes is the 1st and 2nd. Sow wheat, oats, rye, grass and clover seeds on the 5th, 6th and 7th. Set hens and start incubators on the 16th, 17th and 18th. Fish will bite best on the 17th and 18th. Castrate live stock on the 16th and 17th. Make sauer kraut on the 17th and 18th. Extra good time for setting and grafting fruit trees is from 7th to 15th. Set new strawberry beds and start grape cuttings 17th and 18th. Dig potatoes and pick fruit from trees so same will keep well from 19th to 22nd, inclusive. Best time this month to butcher is from 21st to 28th; worst time, 6th to 13th. Make soap and cut hair on the 7th, 8th and 9th. Cut hair for slow growth on the 21st, 22nd and 23rd.

RULING SIGNS

Libra rules from 1st to 22nd; Scorpio from 23rd to 31st. Libra a good sign; Scorpio, a wet sign. Lucky days in October are 19th, 20th and 21st; unlucky days the 5th, 6th and 7th.

W for the tiny Wren, whose pet name is "Jenny;" her song is very sweet, A favorite bird with many.

X is the Xe-ma, who lives by the Pole, But he's learned to keep warm without any coal.



"No park - no ring - no afternoon gentility
No company - no nobility -
No warmth - no cheerfulness - no healthful ease -
No comfortable feel in any member -
No shade, no shine, no butterflies, no bees -
No fruits, no flowers, no leaves, no birds -
November."

—Thomas Hood.

CHAMBERLAIN'S SALVE

Apply liberally. Safe and soothing for burns, scalds, cuts, wounds, sores; also for skin affections as ringworm, tetter, salt-rheum, scald-head, eczema, etc.

Bland
Efficacious
Quickly healing

Invaluable for every purpose for which a salve is indicated.

Piles--It affords great relief if applied internally and externally both night and morning to the cleansed surface.

Barber's Itch--Furnishes just another call for Chamberlain's Salve. Its antiseptic and healing qualities make it a boon to the victim of this loathsome infection.

There are almost daily calls for a good salve in every household. There is none better than Chamberlain's Salve. Ask for it. Price 25 cents. Does not become rancid.

CHAMBERLAIN'S PAIN BALM LINIMENT

Chamberlain's Pain-Balm is a "Specialty" made for external use only, and to satisfy that need for a high-grade, dependable, quick-acting liniment, useable and effective for whatever purpose a liniment is needed.

Apply Chamberlain's Pain-Balm to the afflicted spot. It will stimulate the blood circulation and scatter the congestion that causes the pain. Deep-Seated, long-standing, rheumatic and neuralgic pains disappear under its effective influence.

SENTENCE SERMONS

By the Rev. Roy L. Smith

Happiness is well worth—

The self-denial that economy demands.
The effort necessary to master a sharp tongue.
The sacrifices that love makes necessary.
The loyalty to truth that conscience requires.
The exactions of any uncompromising ideal.
The surrender of any debasing habit.
The struggle to become supreme in one's profession.

PLANETS AND STARS IN NOVEMBER, 1926

Mercury is evening star, being very favorable for viewing during first 10 days of month, but invisible latter part of month. Venus is too close to the sun for observation this month. Mars is in opposition on the 4th and shines all night, rising just at sunset on the 4th, becoming evening star after that date. Jupiter is a bright evening star, crossing meridian at 5:50 P. M. and setting near mid-night. Saturn is too near the sun for observation this month. Fixed Stars: Vega has just passed meridian at dark and sets in northwest at mid-night. The Dog Star rises about 10 P. M. and crosses meridian about 1 A. M.

GENERAL WEATHER FORECAST, NOV. 1926

1st to 4th, mild period; southerly winds and high temperatures on the 3rd and 4th, especially; unsettled in the far west and northwest, where a storm develops on 3rd and 4th. 5th to 7th, storm period; high winds and heavy rainfall in southern states and snow and colder in the north and central west, with temperature almost to zero in upper Missouri river valley. 8th to 10th, cold wave, with frosts reaching down into the Gulf regions. 11th to 14th, sleet and ice storms in Rocky Mountain regions and from Ohio to New England; mild with sunshine and showers over the south. 15th to 17th, fair and mild. 18th to 21st, unsettled and disagreeable; general rains in the south and much snow in the west and northwest. 22nd to 27th, generally partly cloudy and moderately cold with northeasterly winds. Thanksgiving Day will be partly cloudy and rather unpleasant. 28th to 30th, moderating, becoming warm and pleasant over the south; severe storms on the 29th and 30th over lake region, causing cloudy weather and showers over middle and southern states and snow storms in the north and northwest, with temperature falling to low readings in the northern Rocky Mountain regions as the month closes. Month will be colder than average, with excessive precipitation.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

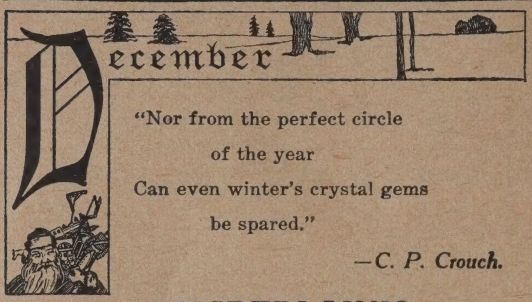
NOVEMBER--Best time this month to sow wheat, oats, rye, grass and clover seeds is on 6th, 7th, 8th, 13th and 14th. Best time to put out onion sets is on the 2nd, 3rd, 29th and 30th. Fish will bite best on the 13th and 14th. Make sauer kraut on the 13th and 14th. Good time for grafting and setting fruit trees, transplanting rosebushes and raspberries, pruning vines, etc., is from 5th to 14th. Dig potatoes and pick fruit from trees so same will keep well from 18th to 21st. Best time to butcher is from 19th to 26th; worst time, 5th to 12th. The roofs of houses, barns and other buildings should be shingled and wooden fences staked from 19th to 27th. Make soap on the 6th and 7th. Cut or trim hair, so it will grow fast, on the 5th, 6th and 7th.

RULING SIGNS

Scorpio rules from 1st to 22nd, Sagittarius from 23rd to 30th; Scorpio, a wet sign; Sagittarius, unfavorable. Lucky days this month are the 18th, 19th and 20th. Unlucky days the 4th, 5th and 6th.

Y is the Yellow-throat, a bird that's seldom seen. Sweet is his song, but we only see a flash of gold in the green.

Z is the Za-me-lodia, a beauty and a dandy. He wears a lovely coat, and at singing he's quite handy.



"Nor from the perfect circle
of the year
Can even winter's crystal gems
be spared."

PLANETS AND STARS IN DECEMBER, 1926

Mercury is morning star all this month, being in most favorable position for observation about the 14th. Venus is too near sun for observation this month. Mars is evening star, rising about 4 hours before dark, reaching meridian about 9 P. M. and setting about 3 A. M. Jupiter is still evening star, setting about 9:30 P. M. Saturn is morning star, but too near the sun for observation until near end of month. Fixed Stars: Sirius rises in the southeast about 7:30 P. M. Capella is overhead at 11 P. M. Vega sets in northwest at 10 P. M.

GENERAL WEATHER FORECAST, DEC., 1926

1st to 4th, cloudy and unsettled period; rain in southern and eastern states on the 1st and 2nd; colder with snows through the Mississippi river valley states and the northwest on the 3rd and 4th. 5th to 7th, clear and cold; freezing temperature reaching the Gulf states and zero weather in upper Missouri river valley. 8th to 10th, generally partly cloudy and warmer with southerly winds in middle and southeastern states and unsettled in the northwest and lake region. 11th to 13th, storm period; furious winds and rains over the south, while high winds and drifting snows will block traffic in the west and north. 12th and 13th, cold wave; high northerly winds with snow and blizzards in New England states. 14th and 15th, sudden change to rain and snow over the central valleys; fair in western and eastern sections. 16th and 17th, generally fair; moderate temperature. 18th to 20th, Mercury storm period at Full Moon; look for much cloudy weather, with rain, turning to sleet and heavy snow in many middle, western and northern states. 21st and 22nd, generally fair. 23rd to 27th, unsettled and unpleasant, with local rains or snows, especially on the 23rd and 27th. 28th to 31st, fair, moderately cold. Month will be warmer than average, with precipitation in excess.

FARM AND GARDEN BULLETIN

Remember that climate and latitude govern your time of planting. Wait until the regular planting season comes for your own locality, then follow Bulletin for that month.

DECEMBER--Best time to set out trees, graft trees, prune vines and transplant all kinds of shrubbery is from 5th to 15th. Best time to kill pork, beef and other animal meat is from 19th to 26th; worst time, 5th to 12th. Fish will bite best on the 10th and 11th. These dates are also favorable to make sauer kraut and castrate live stock. Plant onion sets on the 26th, 27th and 28th. Set hens and start incubators on the 13th, 14th and 15th. Make boards, shingle houses and barns and stake wooden fences from 19th to 26th. Make soap on the 6th and 7th. For rapid growth cut or trim hair on the 5th, 6th and 7th. For slow growth, cut on the 19th, 20th and 21st.

RULING SIGNS

Sagittarius rules from 1st to 20th; Capricornus from 21st to 31st; both signs unfavorable. Lucky days this month are 18th, 19th and 20th. Unlucky days the 5th, 6th and 7th.

WHY SHE CROWNED HIM

Wife (with newspaper)—"It says here that men grow bald because of the intense activity of their brains."

Hubby—"Exactly. And women have no whiskers because of the intense activity of their chins."

"ONE A DAY"

A very successful way of taking

CHAMBERLAIN'S Stomach and Liver TABLETS

Speaking from experience, *a friend writes:*

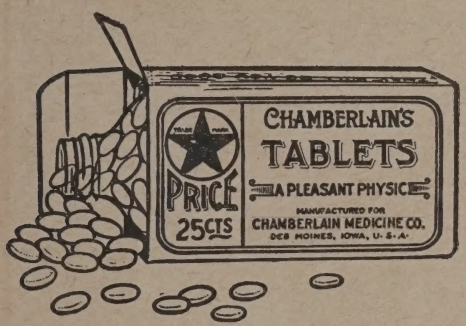
"I have used Chamberlain's Tablets for many years. They keep my stomach and liver in good order, but I use them more especially for constipation. I take one each night on retiring. I have done so for a number of years. This keeps my bowels in a natural condition. For constipation, this remedy is invaluable and especially would I commend it to elderly people. I have passed my seventieth year."

(Signed) Thomas F. Francis, Congressman
Marquette, Second District
401 S. 3rd Street, Ishpeming, Michigan.

CHAMBERLAIN'S TABLETS

For the Prompt Relief of

Indigestion, Stomach Troubles
Flatulence (gas pains)
Sour Stomach, Bad Breath
Biliousness, Torpid Liver
Sick Headache, Constipation



Easy to take, pleasant in effect; no griping, no nausea; handy package, costs but little; only 25c. Give tone and healthy activity to the entire intestinal tract.

WHAT THEY WILL DO FOR YOU:

Make digestion easy.

Stop gassy pains that crowd the heart.

Relieve pain and discomfort after eating.

Prevent indigestion and dyspepsia.

Sweeten the stomach and breath.

Keep the liver healthily active.

Promote the flow of bile so necessary to digestion; preventing sick headache, biliousness and periodic bilious attacks. Cleanse the colon thoroughly, avoiding auto-intoxication and poisonous constipation.

Evacuate the lower bowel, carrying the waste matter out of the system without griping, nausea or any unpleasantness next day after.

Easier to take and much pleasanter than harsh purgatives, disagreeable oils and bitter nauseating salines.

Chamberlain's Tablets are so easy to take, so gentle and persuasive in action, that the most sensitive stomach finds them acceptable and comforting.

WHAT THE USERS SAY:

—she tells us:

"More health, happiness, vitality, more mental and bodily vigor in just one bottle of Chamberlain's Tablets than you ever dreamed of. They are a wonderful help for distress in the stomach and liver disorders, and we find them the best thing we can take for constipation."

"Since I have had such good results with Chamberlain's Tablets, for biliousness, constipation and sour stomach, I always carry them in my vest pocket."
Fred Miller, Milwaukee, Wis.

"My mother uses Chamberlain's Stomach and Liver Tablets now and it is a blessing to herself and also to the rest to see her feeling so well."
Paul Quay, Cleveland, Ohio.

"Both my husband and myself have secured relief from constipation since using Chamberlain's Stomach and Liver Tablets."
Mrs. F. Lawson, Benkelman, Neb.

"I have been troubled with constipation for years but after using only one bottle of Chamberlain's Stomach and Liver Tablets I feel well and have no more trouble."
Mrs. Helene Miller, Boulder Creek, Cal.

"Since using Chamberlain's Stomach and Liver Tablets I have never felt any symptoms of stomach trouble."
T. C. Hutchins, Yadkinville, N. C.

"I have received great benefit from the use of Chamberlain's Stomach and Liver Tablets."
Mrs. M. A. Dix, Elmira, N. Y.

"A fellow worker recommended Chamberlain's Stomach and Liver Tablets to me, and I have used them since. They are splendid and reliable."
Ike Perkins, Bomarton, Texas.

JUST WHAT YOU NEED

When you feel dull after eating.

When you have no appetite.

When you have a bad taste in the mouth.

When your bowels are constipated.

When your liver is torpid.

When you have a headache.

Chamberlain's Tablets will improve your appetite, cleanse and invigorate your stomach, and regulate your liver and bowels.
